Selected Financial and Related Data for California Public Schools

Kindergarten Through Grade Twelve

CALIFORNIA STATE DEPARTMENT OF EDUCATION
Bill Honig, Superintendent of Public Instruction
Sacramento, 1985

Selected Financial and Related Data for California Public Schools

Kindergarten Through Grade Twelve

Prepared by the Local Assistance Bureau for School Apportionments, Grants, and Fiscal Assistance

Fiscal Services Division

Publishing Information

Selected Financial and Related Data for California Public Schools, which was prepared by the Local Assistance Bureau for School Apportionments, Grants, and Fiscal Assistance, was published in 1985 by the California State Department of Education, 721 Capitol Mall, Sacramento, CA 95814-4785, and was distributed under the provisions of the Library Distribution Act and *Government Code* Section 11096.

Copies of this publication are available for $3 per copy, plus sales tax for California residents, from Bureau of Publications Sales, California State Department of Education, P.O. Box 271, Sacramento, CA 95802-0271. A list of other publications available from the Department of Education may be secured by writing to the same address or by calling (916) 445-1260.

Introduction

From 1967-68 until 1978-79 the California Department of Education annually published a reference summary titled California Public Schools Selected Statistics. Since that time the Department has published a variety of statistical abstracts addressing financial issues, but the need for an annual summary of financial and related data has become increasingly evident. This publication is intended to meet that need and provide annual summary information in the tradition of Selected Statistics.

Most of the financial statistics displayed in this publication are for fiscal year 1983-84 or show 1983-84 as the most recent year in a multi-year table. This is because 1983-84 was the most recent year for which we had complete (as opposed to estimated) data when we went to press. The "books" are just now closing on fiscal year 1984-85, and this information will be reported to the Department during the coming year for inclusion in next year's Selected Financial and Related Data for California Public Schools.

Fiscal year 1983-84 was the first year of implementation for Senate Bill 813, the Hughes-Hart Educational Reform Act of 1983, and the reader may discern the initial fiscal impact of this sweeping reform measure. Since a number of the reforms and programs established by Senate Bill 813 were first implemented in 1984-85, the full financial impact of SB 813 is not reflected in 1983-84 revenues and expenditures. Certain SB 813 programs, such as the phased expansion of instructional time, will not be fully funded for two to three years, and the reader is cautioned to avoid premature analysis regarding the fiscal effects of SB 813.

The financial data contained in this document were compiled from annual financial reports submitted to the Department by local educational agencies (Forms J-41, J-41A, J-73, and J-73A). Every effort was made to ensure that the reports of all active California school districts and county offices of education were included in this summary. This information is, however, only as accurate as the data received, and the reader should note that this information had not been audited at the local or state level by the time it was received. The general, nonfinancial data contained in this document were derived from a number of different reports also submitted by local agencies.

Classifications of income and expenditures used in this statistical report are in accordance with the California School Accounting Manual unless otherwise noted. For more detailed financial data, derived from the same source documents, the reader may wish to consult the Annual Report of Financial Transactions Concerning School Districts and Community College Districts of California, which is published for each fiscal year by the State Controller.

This first edition of Selected Financial and Related Data is not as comprehensive and informative as might be desired by some users. As better means of collecting, verifying, and displaying data are developed, the Department intends to expand this report to include relevant tables that explain more about the nature and character of revenues and expenditures. Other sources of data may also be used. In future editions, for example, the Department intends to include multi-year tables displaying the Budget Act's authorized level of support for certain categorical programs over the past several years. Where possible, relevant workload statistics may also be gathered in order to allow for comparison and analysis. For obvious reasons, the Department will not be able to custom design displays to meet the unique needs of specialized users, but we do invite comments and will attempt to accommodate the consensus of users who would like to see a particular table or display. Please address your comments, concerns, and suggestions to the Administrator, Local Assistance Bureau, Department of Education.

III-7 Expenditures of Other District Funds, 1983-84..... 48
III-8 Selected Financial Statistics on California Public School Districts, by County and by District, 1983-84..... 49

Part I
General Statistics

The tables displayed in Part I of this document present general or demographic information which, while relevant to school finance, are not strictly financial. Information on the number and type of California school districts and schools are intended to provide the reader with an appreciation of the size of California's educational system for kindergarten through grade 12. Information on enrollment and average daily attendance (ADA) add to the understanding of size while providing the reader with the basic workload statistics which are most frequently used for distribution of funds. Additional information on the length of the school year and the numbers and average salaries of staff are particularly relevant to school reform initiatives that seek to increase instructional time, avert potential teacher shortages and reduce class size. These tables present only the most summary basic data and are by no means exhaustive of the available general information. For additional general statistics, the reader may wish to consult the Department publication titled Selected Education Statistics, California Public and Private Schools.

Most of the information in Part I was compiled from the California Basic Educational Data System (CBEDS) and has not been audited or otherwise verified. The average daily attendance (ADA) used in these tables is "annual" data which may be compiled before local audits are completed for all districts. The reader should note that CBEDS's data are annually collected in October and are, therefore, "point-in-time" information as contrasted with "annual average" data such as ADA. This means that ADA may exceed enrollment when a net increase in enrollments occurs after October.

In future editions of Selected Financial and Related Data the Department may include new tables of general statistics reflecting concerns appropriate to the time of publication.

Table I-1

Number and Type of School Districts in California
for Selected Years

Year	Type of District			Total
	Elementary	High School	Unified	
1985-86	645	112	271	1,028
1984-85	647	112	270	1,029

Note: Enrollment figures are as of October for all fiscal years, whereas average daily attendance figures are cumulative from July 1 through June 30. Since enrollment data exclude certain pupil categories, the same categories are excluded from the a.d.a. data in order to make valid comparisons. The excluded a.d.a categories are adult education, ROC/P, summer school, extended year programs, special education for nonpublic schools, and state hospital students in special day classes. Both statistics include county office attendance excluding tuition fund a.d.a. and the categories listed above. Because of these exclusions, this table will not compare with other a.d.a. tables in this document.

Table I-10

Comparison of State Total Average Daily Attendance to Enrollment for Selected Years

Year	K through 8			9 through 12			K through 12		
	ADA	Enrollment	Ratio(%)	ADA	Enrollment	Ratio(%)	ADA	Enrollment	Ratio(%)
1983-84	2,774,774	2,813,524	98.6	1,201,159	1,275,493	94.2	3,975,933	4,089,017	97.2

176	166	25.3	33	29.2	127	42.9	326	30.6
175*	405	61.7	67	59.3	117	39.6	589	55.3
Less than 175	3	0.5	0	0.0	6	2.0	9	0.8
Total	656	100.0	113	100.0	296	100.0	1,065**	100.0

*The legal minimum is 175 days.

**In 1983-84 there were 1,029 school districts, thirty-six of which had approval for a school in their districts to operate fewer days than the rest of the schools in the district because of emergency conditions or other considerations. Data entry guidelines for attendance documents made it necessary to report the data for these schools as separate districts for this table.

Table I-12

Number of Full-Time-Equivalent Certificated Employees and
Number of Classified Employees in California School Districts

Employee Category	1982-83	1983-84	1984-85
Certificated F.T.E.

Part II
Income

Public school income is derived from local, state, and federal sources and is often characterized by source. While most income may also be considered revenue, there are some nonrevenue sources of income. The reader should consult the California School Accounting Manual for the definitions of terms that are used in these tables of revenues and expenditures (Part III).

The tables and displays of Part II provide summary aggregate data for all public school districts and county offices of education in California as reported to the Department of Education. The reader is cautioned to carefully examine the descriptions of the data on each table. For example, tables 3, 4, 5, and 8 contain information pertinent only to local general funds including individual districts' General Funds and County School Service Funds. Local general funds should not be confused with the State General Fund, from which most state appropriations are made. Local general funds may include income from state, local, and federal sources, including income provided for general or specified purposes (both basic and categorical). Local general funds do not include income to other local funds, a listing of which may be found in Table II-6.

Several tables in Part II refer to revenue limits which are described in the note under Table II-15. Composed of both state and local general purpose revenues, the revenue limit is the single most important element of school finance in California.

Table II-1

Public School Income, All Sources, 1983-84[1/]

Agency	Local	State	Federal	Total
School Districts:				
Property Taxes	$2,721,229,377			$ 2,721,229,377

1974-75	3,890,519,359	52.43	2,950,645,929	39.76	579,223,786	7.81	7,420,389,074

[1/]This table includes all income accounts from all funds reported by school districts and joint powers/cooperative regional occupational centers/programs in their "Annual Financial and Budget Reports", forms J41 and J41-JP, and by county offices of education in their "County Superintendent of Schools Budget and Financial Report", form J73. In addition, state income includes the school district textbook credit and the state contribution to the State Teachers Retirement Fund, and federal income includes the value of commodities donated by the Department of Agriculture.

[2/]Districts' "County Income" category is considered local income.

[3/]Income classified as "Combined Federal and State Income" is included in state income.

*$100 standard applicable in 1974-75, adjusted for California Consumer Price Index
**Projected from first principal revenue limit data

Note: The data in table II-15 are the bases for tables II-16 through II-22. These tables chart the base revenue limit closure for school districts categorized as small elementary (less than 101 a.d.a.), large elementary (more than 100 a.d.a.), small high school (less than 301 a.d.a.), large high school (more than 300 a.d.a.), small unified (less than 1,501 a.d.a), large unified (more than 1,500 a.d.a.), and overall (all categories combined).

The revenue limit was introduced in the early 1970's in response to the original "Serrano" decision. Prior to 1972, school districts' revenues for general operating purposes varied dramatically. The California Supreme Court upheld a lower court finding that these variations related to local property wealth and constituted an unconstitutional violation of pupils' rights to equal educational opportunities. The Legislature responded to the Serrano decision by establishing base revenue limits per a.d.a. for all school districts based upon districts' then-current funding levels and by providing for closure among base revenue limits per a.d.a. over time. An examination of Table II-22 reveals that 50.7 percent of the students (as shown by the state's a.d.a. figures) were enrolled in school districts having base revenue limits per unit of a.d.a. within $100 of one another in 1974-75. By 1984-85, 94.8 percent of the students were in school districts having base revenue limits per a.d.a. within $212 of one another; i.e., the $100 standard applied in 1974-75 adjusted for inflation as measured by the California Consumer Price Index.

Part III
Expenditures

Public school agencies' budgeting and accounting systems include a variety of funds, but the General Fund is common to all operating districts and the equivalent County School Service Fund to all county offices of education. This section stresses expenditures of these "general" funds, but Table III-7 also presents expenditures of other funds. The California School Accounting Manual provides for the uniform classification of expenditures which is consistent for the several funds.

Expenditures are presented in terms of object of expenditure. Object classifications are for the most part self-explanatory, such as "teachers' salaries," "textbooks," or "pupil transportation supplies." The seven major object of expenditure classifications that public school agencies must account for are: (1)1000-Certificated Salaries; (2)2000-classified Salaries; (3)3000-Employee Benefits; (4)4000-Books and Supplies; (5)5000-Services and Other Operating Expenditures; (6)6000-Capital Outlay; and (7)7000-Other Outgo. The tables in Part III present dollar amounts for the several objects of expenditure, the amount per unit of average daily attendance, and the percent of total expenditures each amount represents.

California's ranking, in comparison to other states, on measures of "expenditures per pupil" has become a topic of some interest in recent years. This issue is sometimes confused by differing definitions of "current expense," and Table III-5 attempts to avoid this confusion by providing the three major definitions used in discussions of California. There are two nationwide agencies that collect this information and compute rankings, and the definitions used by these agencies are shown along with a statutorily defined "current expense" which is unique to California. The California definition is the most limited of the three, and its statutory definition may be found in Section 41372 of the Education Code. This definition is used uniformly throughout California but does not necessarily conform to definitions used in other states. To make national comparisons, one must use one of the definitions of the nationwide ranking agencies. The National Center for Education Statistics (NCES) incorporates all of the expenditures in the California definition and then adds other local expenditure items as shown. The National Education Association (NEA) Research Division disregards certain NCES exclusions but then adds certain statewide expenditures that cannot be related to particular school districts. Because of these statewide expenses, current expense per pupil cannot be calculated for individual school districts using the NEA definition. Current expense can be calculated for individual districts under the state and NCES definitions, and the results of these calculations are shown on Table III-8.

The reader is cautioned that the diversity of California education (geographic, programmatic, and size and scope) make valid comparisons of these numbers among districts extremely difficult. The expenditures of small districts are particularly difficult to compare in this manner. Finally, it should be noted that expenditures take time to record, verify, and compute in "final" form. It generally takes several months after the end of a fiscal year to "close the books" and make any audit adjustments. Because ranking comparisons must be current to be useful to policymakers, many reported rankings are based upon estimates of expenditures that are frequently prepared before the year is actually ended and all of the expenditures actually made. These estimates can be useful, but it should always be understood that they are "subject to change." This edition of Selected Financial and Related Data contains expenditures for no year later than 1983-84. This information was reported as "actual" after the books were closed but before audit adjustments, if any, were made.

Table III-1

Districts' General Fund Expenditures per Unit of Average Daily Attendance
by Type of District, for Selected Years

	Elementary		High School		Unified		All Districts	
Year	Current Expense Per ADA	Total Expense Per ADA	Current Expense Per ADA	Total Expense Per ADA	Current Expense Per ADA	Total Expense Per ADA	Current Expense Per ADA	Total Expense Per ADA

1980-81	2,038	2,096	2,213	2,283	2,188	2,259	2,160	2,228
1979-80	1,863	1,923	2,036	2,110	2,023	2,095	1,992	2,062
1978-79	1,672	1,726	1,845	1,909	1,816	1,880	1,790	1,852
1977-78	1,555	1,626	1,676	1,770	1,622	1,699	1,615	1,693
1976-77	1,371	1,420	1,530	1,603	1,434	1,495	1,433	1,493
1975-76	1,224	1,268	1,412	1,467	1,308	1,359	1,303	1,353
1974-75	1,107	1,147	1,318	1,378	1,214	1,267	1,204	1,255
1969-70	672	701	898	945	766	797	765	802
1959-60	341	361	519	560	423	441	409	435

Notes: "Current Expense of Education" includes expenditures of the following classifications as defined in the California School Accounting Manual: 1000-Certificated Salaries; 2000-Classified Salaries; 3000-Employee Benefits; 4000-Books and Supplies; 5000-Services and Other Operating Expenditures; 6500-Equipment Replacement. Expenditures for the following programs are excluded from the preceding classifications: Food Services, Community Services, Fringe Benefits for Retired Persons, and Facilities Acquisition and Construction.

"Total Expense of Education" includes expenditure classifications 1000 - 5000 as defined above plus classification 6000, Capital Outlay. The exclusions listed for the "current expense" definition above are not excluded from this definition, but only general fund expenditures are shown.

Figures for 1959-60 and 1969-70 include community college districts which slightly inflates "All Districts" expenditures per ada for those years.
